

HORT 590: Internship Learning Objectives / Goals and Agreement Form

One of the major outcomes after completion of an internship experience is that students are more focused, engaged, and excited about their education and future career. The internship experience typically reinforces the importance of a solid educational foundation.

To assure this is indeed a valuable experience and all parties agree, please thoughtfully and neatly complete this form. Upon completion, save a copy for your records, then email, as a Word doc attachment, a copy to your academic advisor. In the email to your advisor, request to schedule a short visit; this time together will allow you to review this form and ask any question(s) you may have about your internship. During this visit your advisor will offer thoughts about your specific objectives.

After your academic advisor has signed and dated this form, send a copy to your employer via email attachment or within a mailed letter that includes an explanatory statement. Your internship employer should already know about this form because some of the required information on this form will require you to ask specific questions of them in order to complete this form prior to your advisor meeting.

The visit with your academic advisor must be completed by the last Friday in April, if not, 15% will be deducted from your internship final grade.

The internship experience student-learning objectives:

1. Provide the student with practical on-the-job experiences in the appropriate organization that will help the student achieve their particular goals.
2. To help confirm and/or expand educational and career goals.
3. To serve as a link between classroom theory and professional practices.
4. Provide job contacts, personal references and other forms of assistance in preparation for full-time employment.
5. To provide an opportunity for the student to broaden their cultural landscape by working with people of different ages, cultures, traditions, and perspectives.

Internship Learning Objectives

Your internship is an opportunity to gain structured, supervised horticultural and professional experience. These experiences should have the level of responsibility that will allow you to apply your current knowledge while developing new knowledge and skills. Your internship should also heighten your awareness of diversity by exposing you to different lifestyles, traditions, and perspectives.

To gain the most from your experience, it is important that you take time *prior* to the start of the internship to develop your desired learning outcomes, which will provide the bases for developing or gaining specific experiences through your internship that will lead to accomplished learning objectives.

As you think about your internship objectives, what type of knowledge do you want to gain? Objectives are concrete and easily measured. Learning objectives should answer the question, "What will I be able to do as a result of this internship experience?" Avoid imprecise or vague objectives.

Learning Objectives should include:

- Four or more objectives focused on the technical aspects and skills related to the discipline.
- Two to three objectives focused on business related issues and/or organizational functions.
- Two to three objectives related to communication skills that seek for improvement (includes internal, external and interpersonal communications).

Example of a vague or too broad of a learning objective: "I want to learn how to operate equipment and tools used to maintain a landscape."

A better objective would be the following: "I want to gain experience on safely operating a string-trimmer."

On a separate paper, please type (double-space) a list of your objectives and bring these with you to your advisor appointment or send them prior via email. They will offer thoughts and suggestions.

Please sign below indicating the visit with you academic advisor has been completed. A signed copy should be given to your employer as soon as possible.
